

ASHIQ BIN HAMID

Aspiring Network Engineer

📞 +8801309475339 | ✉️ ashiqbinhamid@gmail.com | 🌐 github.com/yourusername | 🔗 linkedin.com/in/yourlinkedin

SUMMARY

Motivated Computer Science and Engineering student with a strong interest in Computer Networking, Network Security, and System Administration. Experienced with Cisco networking fundamentals, routing and switching, VLAN configuration, subnetting, Linux administration, and network troubleshooting through academic laboratories and personal projects. Currently pursuing CCNA certification and seeking an opportunity to contribute as a Junior Network Engineer while continuously expanding practical networking skills.

EDUCATION

American International University-Bangladesh (AIUB)

Expected Graduation: Mid 2027

B.Sc. in Computer Science & Engineering

CGPA: 3.80 / 4.00

- Major Focus: Computer & Network Engineering
- Dean's List Award Recipient
- Relevant Coursework: Computer Networks, Data Communications, Operating Systems, Database Management Systems, Data Structures & Algorithms

PROJECTS

Techmak Tech Portal | *Next.js, Tailwind CSS*

- Designed and developed a responsive technology platform showcasing AI-powered CCTV surveillance, EAS systems, and IoT software solutions.
- Built reusable frontend components using Next.js and Tailwind CSS.
- Optimized website responsiveness and user experience across devices.
- Implemented modern UI design and project showcase modules.

Hospital Management System | *C#, .NET, SQL Server*

- Developed a database-driven enterprise application for patient admission, appointment scheduling, billing, and medical records management.
- Designed relational database schemas and optimized SQL operations.
- Built Windows Forms interfaces for administrative workflow automation.
- Implemented secure data storage and retrieval mechanisms.

Inventory Management System | *Java, MySQL*

- Created a stock management solution for inventory tracking and supplier management.
- Implemented low-stock alerts and transaction monitoring features.
- Applied object-oriented programming principles to improve maintainability.
- Integrated MySQL database for inventory reporting and analytics.

Java Core Desktop Application | *Java, Swing, JavaFX*

- Developed a desktop application demonstrating OOP design principles and modular architecture.
- Implemented file handling, GUI design, multithreading, and socket communication.
- Built reusable software components for maintainability and scalability.

TECHNICAL SKILLS

Networking: Cisco Networking Fundamentals, VLANs, NAT, DHCP, DNS, FTP, VPN, ACL, Firewall Concepts, Network Monitoring, OSI Model, TCP/IP

Programming: Python, Java, C++, C#, SQL, Bash

Tools: Cisco Packet Tracer, Wireshark, Git, GitHub, VS Code

Operating Systems: Ubuntu Linux, Kali Linux, Windows

Web Technologies: Next.js, Tailwind CSS, REST APIs

CERTIFICATIONS

Cisco Certified Network Associate (CCNA)

In Progress

Networking, Routing & Switching

Linux Administration Fundamentals

ACHIEVEMENTS

Dean's List Award Recipient

- Recognized for outstanding academic performance at American International University-Bangladesh.

Independent Software Development

- Successfully designed and developed multiple software projects individually from planning to deployment.

Networking Lab Experience

- Completed networking simulations and troubleshooting exercises using Cisco Packet Tracer and Wireshark.

TECHNICAL SKILLS

- Experienced in Microsoft Word
- Experienced in Microsoft PowerPoint and Microsoft Excel
- Proficient in MATLAB Programming
- Familiar with MATLAB Simulink
- Familiar with AutoCAD

SOFT SKILLS

- | | | |
|-----------------------|----------------------------------|------------------------|
| • Problem Solving | • Time Management | • Team Leadership |
| • Analytical Thinking | • Ability to Work Under Pressure | • Communication Skills |
